

POLLEN MESH SPECIFICATION

Micrometer woven filter double structure pollen mesh

Construction - 100% Polyester

Tear strength, length - 231 N/5cm ISO 13934- 1:1999

Tear strength, width - 828 N/5cm

Air permeability - (20 Pa) in L/m³x s - 1600 ISO 9237:1995

Air permeability - (25 Pa) in L/m³x s - 1880

Density - 200 mesh lines per inch, approx 56% openness factor

Weight - grams per sq mtr / ca. 15g +/- 10%

Thickness - ca 0.29mm +/- 0.05%

Resistance to temperature - -35c to +80c

Available in 1.2 mts wide either per metre or in full roll lengths of 30 mts in length and can be used in the fixed panel range of fly screens.
