

ROLLER FLY SCREEN MESH SPECIFICATION

18 x 16 standard mesh

Construction - fibreglass / PVC ultrasonically welded

Density - warp 18 / weft 16 (18 / 16 threads per inch), approx 66% openness factor

Weight - grams per sq mtr / ca. 12g +/- 10%

Thickness - ca 0.29mm +/- 0.05%

Resistance to temperature - -35c to +80c

20 x 30 midge mesh

Construction - fibreglass / PVC ultrasonically welded

Density - warp 20 / weft 30, approx 56% openness factor

Weight - grams per sq mtr / ca. 18g +/- 10%

Thickness - ca 0.29mm +/- 0.05%

Resistance to temperature - -35c to +80c
